GAM Tech Earns 2025 Great Place To Work Certification™

GAM Tech is proud to be Certified by Great Place To Work for the second year in a row. 97% of employees at GAM Tech say it is a great place to work, compared to 60% of employees at a typical company. This recognition is based on direct feedback from employees about their experience.

"Great Place To Work Certification is a highly respected achievement that requires consistent dedication to the employee experience," says Sarah Lewis-Kulin, Vice President of Global Recognition at Great Place To Work. "By earning this recognition, GAM Tech stands out as a company that provides a strong workplace environment for its employees."

"We are proud to be named a Great Place to Work for the third year in a row," said CEO and Managing Partner, Adrian Ghira. "Our people are the reason we continue to grow and deliver strong results for our clients. They show up, support each other, and care about doing the right thing. This recognition belongs to our team. Your work, your attitude, and your support for each other make GAM Tech what it is."

Research from Great Place To Work shows that job seekers are more likely to find strong leadership and fair treatment at Certified workplaces, and employees at Certified workplaces are more likely to look forward to coming to work and feel confident about their opportunities for growth.

About GAM Tech

GAM Tech is an innovative Canadian managed IT services provider (MSP) specializing in delivering secure and sustainable IT solutions. With SOC2 and B-Corp Certifications, we emphasize excellence in security, social responsibility, and environmental stewardship. Our people-focused culture fosters growth, collaboration, and fun, empowering our team to drive success for clients. We prioritize employee well-being and innovation, ensuring our solutions meet evolving business needs while creating a positive impact on both our workforce and the communities we serve.

About Great Place To Work Certification

Great Place To Work Certification is based entirely on what employees report about their workplace experience. Every year, more than 10,000 companies across 60 countries apply to become Certified. The certification is recognized worldwide as a benchmark for high-trust, supportive workplace culture.
